Placement Policy 2026-27

Applicable to the 2027 graduating batch

Sample document for demonstration. The rules below are illustrative. Replace this file with the official policy.

1. Purpose and scope

This policy governs campus placements for students of the 2027 graduating batch. It applies to all undergraduate and postgraduate programmes and to every company that recruits through the Placement Cell.

2. Eligibility to register

A student may register for placements only if all of the following are true:

- The student belongs to the 2027 graduating batch.
- The student has a CGPA of at least 6.0 at the end of the latest completed term.
- The student has attendance of at least 75% in the latest completed term.
- The student has no pending disciplinary action.

Individual companies may set a higher CGPA cut-off and may accept only certain branches. The criteria published with each drive notice always override the minimum above.

3. Backlogs

Unless a drive notice says otherwise, a student must have no active backlogs on the date of the drive. Some companies allow one or two active backlogs, and this is stated in the drive notice. A backlog that is cleared before the drive date is no longer counted as active.

4. Registration

Students register on the placement portal during the registration window, from 1 August 2026 to 30 September 2026. The profile must include a resume of at most two pages in PDF format. The Placement Cell verifies each profile within 5 working days.

Registration for an individual drive must be completed before that drive's registration deadline, which is at least 48 hours before the drive. Late registrations are not accepted.

5. Company categories

Companies are placed in three categories according to the annual cost to company (CTC):

- Regular: CTC below Rs 8 lakh per annum (LPA).
- Dream: CTC of Rs 8 LPA and above, but below Rs 15 LPA.
- Super Dream: CTC of Rs 15 LPA and above.

6. One-offer policy

A student who has accepted an offer may attend another drive only if the CTC offered by that company is at least 1.5 times the CTC of the highest offer the student already holds. A student who holds an offer and does not meet this condition cannot register for that drive.

Pre-placement offers (PPOs) received through internships count as offers under this policy.

7. Offer acceptance and withdrawal

A student must accept or decline an offer within 48 hours of receiving the offer letter through the Placement Cell. A student who withdraws from an offer that was accepted is debarred from all further placement activity for the rest of the placement season. Debarment cannot be waived.

8. Code of conduct

Students must report 30 minutes before the scheduled start of a drive, in formal attire. A student who is absent without informing the Placement Cell in advance receives a warning, and two such absences lead to debarment. Use of unfair means in any test or interview leads to immediate debarment.

9. Requests for exceptions

A request for any relaxation of the criteria must be submitted in writing to the Head of the Placement Cell through the placement portal. The Placement Committee decides each request individually and its decision is final. No relaxation is available for the one-offer policy or for debarment.

10. Contact

Placement Cell, Administrative Block, Ground Floor. E-mail: placements@campus.example. Office hours are Monday to Saturday, 9:00 am to 5:00 pm.
